RENO

Reno have grown in a short space of time to become one of the Midlands most powerful bands and when you watch them it is easy to see why.

Their unique blend of heavy riffs, West Coast vocals, and 'Nashville Type' sounds coupled with their superb writing ability have given them the enviable reputation of being the band that other musicians go to watch.

The line up comprises:-

<i>MICK BROADHURST</i>	<i>Bass/Vocals</i>
<i>PAUL PRICE</i>	<i>Pedal Steel/Electric Guitar/ Acoustic Guitar/Five String Banjo/ Violin/Vocals</i>
<i>PETE BRAZIL</i>	<i>Guitar/Accordian/Vocals</i>
<i>DAVE SIMPSON</i>	<i>Drums/Vocals</i>
<i>PETE OLIVER</i>	<i>Guitar/Vocals</i>

Each member of the band is also a prolific song writer.

This showcase of obvious talent has not gone unnoticed by the recording industry and a recording contract is being finalised with their first L.P. due out in Spring 1979.

They have done numerous radio broadcasts in the two years they have been together including the Dave Lee Travis Show and Kid Jensen Show for Radio 1; they are now heavily committed to the College circuit.

1979 is going to be the big year for RENO and will once again prove that Britain still produces some of the best bands in the world.

Tony Withers

MAGNUM

Birmingham has produced some of Britain's finest bands over the last decade and Magnum must surely be one of them.

Formed 3 years ago they are a five piece band that quickly established themselves with their own music and their own following.

The line up comprises:-

<i>TONY CLARKIN</i>	<i>Guitar/Vocals/Song Writer</i>
<i>BOB CATLEY</i>	<i>Vocals</i>
<i>KEX GORIN</i>	<i>Drums</i>
<i>RICHARD BAILEY</i>	<i>Keyboards/Flute/Vocals</i>
<i>WALLY LOWE</i>	<i>Bass/Vocals</i>

Magnum's reputation rapidly spread and earned themselves a place on the 1977 Judas Priest Tour.

By now they were playing to capacity crowds in and around the Midlands and were soon signed up by Jet Records.

They have recently completed a highly successful National Tour with David Coverdale's 'Whitesnake'.

Their first album 'Kingdom of Madness' (*JET LP 210*) has been in the album charts for four months and both their single releases sold well here and abroad.

The second Magnum album due for release in May 1979 is again written by Tony Clarkin and will coincide with their next National Tour.

The contents of the second album will have a similar approach to the first with again a heavy melodic rock feel and it will undoubtedly establish them as one of Britain's premiere heavy bands.
